Subject: assassination records
From time to time (such as yesterday) I anticipate receiving small groups of assassination records (yesterday we received five photocopied pages from a Louisiana sheriff's office.) I make a record of this in the computer, but do we have a location to store these until they are transmitted to NARA? (I know large boxes of records go in the SCIF for safekeeping, but do we have a place for smaller records groups that could otherwise easily get misplaced?)
