Subject: Mexico City cables

Body: Barry called this morning to tell you that the cable time frames you and Manuel were looking for are not in the collection. There are some chronos of cables and dispathces in the collection, but not the ones you want. Barry says that you will have to make a formal request if you want to see chronos not in the collection, so they can put in for a search. He also checked on the status of the true name search for me and found out that they have not yet gone out. They've been "prioritizing" them. Seems like a lot of bureaucratic stuff going on.
