Subject: Assignments

Cognizant of the fact that you have just returned and are no doubt inundated with more important matters, I wanted to let you know that I am presently available for new assignments. Alternatively, with new feedback from you, I could continue with/follow-up on some "old" or pending matters. Among these are: 1) Lyon Garrison boxes - If you were satisfied with the kind of summary memo and attachments I provided on the Wegmann material, I could move on to the Lyon Garrison material. But I wouldn't want to start on this unless and until you informed me that a) you think it a useful thing to do and, b) you are in a position to give me input on whether what I did on the Wegmann boxes was what you wanted -- or not, as the case may be; 2) ARRB Tracking Chart/Outside Correspondence - Again, I don't wish to proceed to review and summarize potential 'action' steps on additional tracking chart items unless I have some sense that my initial memo on the subject corresponds roughly to what you were looking for when you first gave me this task; I am also available to draft correspondence for your review on any of the items I looked at and summarized in my initial memo; 3) Warren Commission and other referred documents at NARA II - Unless otherwise directed, I intend to travel to NARA II again tomorrow and physically/visually review those boxes of referred documents I've not yet seen; namely, the 4 CIA boxes and the 11-13 DOJ boxes. I will provide you with feedback on what I see. Beyond that, I am awaiting further instruction from you as to the next step on this issue; 4) ID Database - we talked about expanding the Name/SS#/DOB file which we started a while back; I know Kevin also has information of this sort he wants to enter into a system- wide database. Do you need to talk to/give direction to Chet about how you want this database set up, or would you rather Kevin and I just proceeded with him? Thanks!
