**Subject:** Oswald boxes 6, 7, & 8.

Please relay to Barry Harrelson the following questions and problems concerning Oswald boxes 6, 7, 8, and 9: - We have no NARA numbers or electronic data for box 6. -Is the electronic data which we have for boxes 7, 8, & 9 accurate? Or was it necessary, as was the case in box 1, for CIA to make changes in the database. -The files are difficult to review, as documents are misfiled and missing. -Issues with specific documents: -OSW8:V33 1993.06.01.10:46:25:370000 - Document missing. -104-10001-10165 -redacted and classified documents are not identical- two different versions. -104-10001-10092 -two documents with same document ID number; sanitizations unclear. -OSW7:V31 1993.05.19.15:26:12:000084 -redacted copy, but IDEN aid reads "RIF"- unclear explanation. -104-10002-10134 -No unredacted copy attached. A "post-it" note states that a copy of the original appears in the next file. A version of the original does appear two files later, but that document has no NARA number as far as I can tell. -104-10002-10137 -no unredacted copy is attached to this routing sheet. -a CIA Record sheet follows which apparently refers to the document to which the routing sheet was attached. There is no document. (An attached "post-it" notes this problem.) -OSW8:V35
