Subject: Noelle
Does this sound right to you?To: Jeremy Gunn/ARRBcc: David Marwell/ARRB From: Chet Rhodes/ARRB Date: 09/06/95 08:34:56 PMSubject: NoelleI have talked with David about using Noelle as the Meeting Manager for the Review Track database.Valerie would be the designated backup.In this regard she would be responsible for the following:Working with the teams to move the documents onto the boards agenda.At the meetings calling up the documents on the computer screen and recording the needed information directly into the computer system.Sending out the various notices that the system produces and providing the copies to the proper staffAnything else that anyone could think of...I hope to automate much of this process to keep the work load for Noelle under control.
