**Subject:** Kennedy/Connally medical records

**Body:** Dennis - I understand that Jeremy assigned you the task of locating JFK's medical records, and on an ancillary basis, of locating Connally's medical records. Further, I understand that Tammi and Doug will work with you on this. As you know I've had investigative issues open on these matters for some months and plan to work the investigations more actively when I conclude my work in New Orleans.As you know, Joe did a lot of searching in the HSCA database for records they developed on these matters, although most of what Joe did concerned Connally's medical records.I think it's great that you folks will be looking for the military medical records while Dave and I continue to work on the non-federal records.I'll plan to meet with all of you at 1:30 today to share the work that I've done on these issues and the work that Joe has given me.
