Subject: meeting with david on internet stuff...
anne...i met with david based on our conversation & he likes the idea of doing intelligence gathering for records over the net...he says he doesn't want me to respond to anyone using my account at home...rather he asked me to ask chet to let me do it through compuserve here at the office...he also said that he has submitted world wide web addresses for all of us that will be available in the near future...he did not feel that i needed to go through jeremy for legal clearance...dave
