**Subject:** Queries

1. Do you have any news/updates on the GC front? 2. What do you think about proposing to the Bureau that for informant numbers we jointly take the following approach for all symbol numbers: (a) prefixes and suffixes are released; (b) Board will (as a rule) not request any additional information; (c) if the Bureau has a particular need to protect prefix or suffix it will inform the Board and provide evidence; (d) if the Board wants to release a number, it will specifically notify the Bureau and give it an opportunity to provide evidence. Isn't that what both the Board and Bureau want?
