Subject: Suggestions for your trip
It is still very hot and humid here. I've been wearing shorts and tee-shirts this weekend. I brought a long sleeve shirt for evenings, but it's still 80 degrees at 9:00 pm. I'd really go with a summer wardrobe for your upcoming trip, unless the weather takes a real turn for the cooler, which natives tell me is not apt to happen. Have fun but be very careful. Only walk in pairs or groups, especially after dark or if you are not on a main street (ie. Canal Street.) Don't leave anything visible in your car and avoid carrying much cash or wearing much jewelry.
Body: Come to think of it, just pretend you're still in Washington! Have a geat trip!!
