Subject: Emergency
Chet, David spoke with me and after explaining what happened, we decided my item probably really was lost...I gave it an English description, but had not given it a computer name; i.e., XXX.wpd, and when I tried to save it after paginating, it "disappeared".Anyway, I started over and re-created what was lost, so "never mind".To: Chet Rhodes/ARRBcc: David Marwell/ARRB From: Douglas Horne/ARRB Date: 10/05/95 10:59:39 AMSubject: EmergencyI was well into a detailed, formal memo to Jeremy (a response to an assigned project), when I "lost it" just after paginating. I refuse to admit defeat and start over again until you tell me I really HAVE lost it. HELP.
