Subject: ARRB Tracking Chart/Access to R-Drive
Jeremy -- you suspicions were correct: while the computer will let me enter/type changes on to the Tracking Chart in the R-Drive, it will not let me save the changes. Two options: 1) authorize Chet to make the necessary changes in the system to allow me to make the changes directly on the R-Drive, or, 2) I could copy the R-Drive version to my E-Drive, make the changes, copy my updated version back onto the R-Drive and then you could delete the old one, ad infinitum. Let me know!
