**Subject:** Report to Board  
David has asked that we prepare oral reports to give to the Board in the public portion of its October meeting. It is anticipated that many representatives from COPA will be in attendance. I anticipate that we will speak for approximately 5 minutes each. Although we do not need to prepare verbatim scripts, our thoughts should be carefully outlined. Your presentations should describe, in non-controversial terms, the work of the FBI and CIA teams to date. You should discuss where we have been and the scope of the task remaining before us. We can discuss this in greater detail soon.
