Subject: Military guy stuff

This may be old news for all I know, but FYI: a Steve Osborn testified before the Board at its 11/18/94 Dallas hearing. He alleges that he spoke with an individual who was serving in an Army Intelligence Unit out of Ft. Hood (Clean, TX) at the time of the assassination. This unit allegedly staked out Dealey Plaza and filmed the assassination with several cameras placed at different locations and angles. Needless to say, men identifying themselves as FBI agents swooped in minutes after the assassination and took the film. The Army personnel went back to Ft. Hood, were sworn to secrecy, and that is the end of the story. Osborne won't identify his source, but wants the Board to search for the film. This one was too far out for me to include in the Tracking Chart, but it's on pages 43-50 of the hearing transcript, in case you want to take a look at it. (Dennis, I don't want you racing Doug to get to the transcript first... these things are always funny 'til someone gets hurt...)
