**Subject:** FBI section

**Body:** Michelle -- I just went ahead and rewrote the FBI section so that you wouldn't have to grapple with it again. I figured it would be easier since I sortof know the lingo and have some understanding of how the FBI generally does business. I think it is hard to write this stuff if you don't really know the agency culture. I hope you don't think I'm taking this over too much. Please feel free to change the style to match yours, if you want. Here it is.
