**Subject:** KRON-TV News Special from 1988 on JFK Assassination

I have one additional recommendation on material which I believe ARRB should try to obtain for the JFK Collection from a private source: In 1988 KRON-TV in San Francisco conducted several serious, independent interviews of Parkland and Bethesda "medical witnesses", which included not only getting them to tell of their recollections of wounds, but also their comments on the autopsy photos and X-rays. In short, KRON-TV did what the HSCA did not do: several Parkland and Bethesda witnesses were interviewed and asked the same questions, and were asked to comment on the visual records from the autopsy. Short excerpts of these interviews (done by Sylvia Chase) appear in Bob Groden's "Case for Conspiracy" videotape, from about the 45 min. mark, to the 1:15 min mark on his tape. They are most intriguing, very detailed, and anyone who watches them has a natural desire to see more. To my knowledge, the KRON-TV tapes have never been for sale to anyone. This is the type of material which undoubtedly qualifies as "an assassination record", and since these interviews are not available commercially, I believe ARRB should pursue them for the JFK Collection at NARA.
