Subject: Warren Commission exhibits and FBI exhibits

As you know Dave and I spent all day yesterday reviewing the above at NARA as part of our work on several investigative issues. As I told you this morning there are no RIF's for any of the 100+ boxes of these assassination records. Additionally no work has been done to preserve any of Oswald's clothing items, including the garments he was wearing at the time of his arrest. His shoes, pants, shirt and jacket are rolled up and stuffed into manilla envelopes within boxes. Photographs, books, letters and other LHO artifacts are in the same state of non-preservation.
