**Subject:** Secret Service  
If you go into the review track and type in the agency number 008136, you will see 6 different RIF numbers. None of the RIFs describe the document provided to us by the Secret Service. I have left this material on shelf 5a without reviewing the document in hand. I could not decide which RIF to use, and I am wondering if we should request additional information from the Secret Service--or ask Joe to copy these documents at Archives
