Subject: Personnel Involved With Autopsy X-Rays and Photos

Anne, the R & A medical team needs your continuing assistance yet again, this time in order to locate the present whereabouts of personnel involved with the taking, developing, and/or custody of JFK autopsy X-rays and photos. Some of these names are repeats from the list I forwarded to you last week, and some names will be new to you. Please treat this request, and the list below, as a higher priority than location of the whereabouts of those on the list of Medical Witnesses I sent to you on November 7th:(I am not giving you the names of people whom I know to be deceased; however, I would not be surprised to find that some of the personnel named below are deceased also.)X-Rays:Jerrol F. Custer (Pittsburgh area)Edward F. Reed (location unknown-former Navy enlisted medical technician)Photos:John T. Stringer (former Navy civil servant at Bethesda)Floyd A. Riebe (former Navy enlisted medical technician)Robert L. Knudsen (former Navy Chief Petty Officer--a photographer's mate--in 1963)V. Madonia (former Navy LT working at Anacostia, at the Naval Procesing Center, in 1963)Robert I. Bouck (former USSS agent assigned to White House in 1963...deceased???)Edith Duncan (federal civilian Secret Service employee--"admin"--in 1963...worked with Bouck)Good Luck...I don't have much to give you today which would help you in your search. The most important names (I think) are Custer, Reed, Stringer, Riebe, and Bouck (if he is still alive).Dennis and I do not want to have to pursue the current locations of these people through the research community except as a last resort, due to the sensitivity of this whole area of inquiry.
