Subject: Message from Jeremy

First, Jeremy asked me a question in passing today regarding what the HSCA did/did not do in regard to analysis of autopsy photos and X-Rays...I told him I needed to get smart on that and that I couldn't answer his question until I looked at volume 6 of the HSCA report. I "got smart" by reading sections of volume 6, and owed him an answer, which is why I wrote the e-mail to him this subject.SECOND, and most important, Jeremy called me late this afternoon (right after you left...he asked if you were here and I told him you had just departed) and asked me to pass to you that he would like to meet with you and me tomorrow morning and just get an update from you on "where we stand" in regard to medical team issues and research. END
