Subject: City of Tampa

I had a letter today from Claire Cardina, the City of Tampa Archivist. She sent a basic list of the 1963 records from the police and fire departments, the legal department and the mayor's office. There is no indication from her letter if there definite assassination related records from JFK's 11/18/63 trip to Tampa within the Archives holdings. I'm passing this information to you in the event someone travels to Florida on other Board business, further contact with Cardina might be in order.
