**Subject:** SCIF

In order to create a bit more actual workspace (as opposed to document storage/pile space) in the SCIF, I have moved the HSCA index boxes off the desk where they have sat since time immemorial to Row 5. I've also returned the five or so HSCA Immunized Testimony Boxes which have been sitting out on one of the tables for awhile back to Row 5 -- where whoever was using them before can find them if they still need them. Thanks to Noelle and Joan for taking an interest in clearing a little room for others to work.
