**Subject:** Audrey Bell

I believe we should depose or interview Audrey Bell...(I would prefer a deposition). She has stated (to researcher Livingstone) that Dr. Perry told her on November 23, 1963 that he was awakened several times in the middle of the night on Nov. 22-23 by calls from Bethesda by people attempting to get him to retract his statements about an entry wound in the front of the throat which he had made on November 22, 1963 at the Parkland press conference. She has also stated that the Connally wrist fragments in evidence at the archives are less in number, and smaller than the ones she personally removed from his wrist at surgery and placed in a glass container. She has made a life-sized drawing of these fragments for researcher Livingstone. If she corroborates the phone call hearsay under oath, it would/should lead to some more robust questions for Dr. Humes and Dr. Boswell. I believe she lives in the Dallas metro area.
