Subject: Agency Contacts database
Help me remember to show you and Jeremy how to do this.Dougs computer needed another step which I need to show you..To: Chet Rhodes/ARRBcc: From: Jeremy Gunn/ARRB Date: 09/18/95 08:00:08 AMSubject: Agency Contacts databasel use the Agency Contacts database for two purposes: phone directory and records of contacts. I would like to have two separate icons so that I do not need to keep flipping back and forth in the views. When I try to add a new agency contacts, the program won't let me because it is already loaded. Is there any way I can have it twice?
