Subject: Army Records Box, NARA II
I assume Tammi told you about this.To: Jeremy Gunn/ARRBcc: Phil Golrick/ARRB From: Tammi Long/ARRB
Date: 11/29/95 03:48:15 PMSubject: Army Records Box, NARA III looked at the material in the above
referenced box. The first item was a notebook containing approximately 155 pages of raw data from the
Wound Ballistics tests on goats and geletin masses. Additionally, the box contained color slides and black and
white photographs from the autopsies of the goats, and two copies of the personal notes of Dr. Finck, as
previously released. The material in the box did not duplicate, reference or directly pertain to the items
contained in the HSCA Sec/Class boxes.
