**Subject:** e-mail group list  
we have received a modest response to our notice letting people on our mailing list know that they can now receive information through the Internet. I just found out I will be mailing out the recent Federal Register notice tomorrow. Can you show me how to do that via the Internet? If not (if you do not have the time) I can include a memo in this mailing stating that a group list is being put together and that as soon as it is set up we will begin doing that, etc. Thanks, Chet.
