Subject: Copy of document you wanted
Unfortunately, I was held up at Archives II so long that the Leg. Vault at Archives I was closed up when I got back and, although the document you wanted copied (J. Oster) was open in full and I could have gotten it out at Archives II, I had it in my mind to get it at Archives I and so didn't get it all! However, I will be at Archives I in the morning, so you should have it by lunch tomorrow!
