Subject: Dr. McClelland

I have reconsidered my position on Dr. McClelland, and now feel that we should reapproach him. My basic reason is that he reportedly told Anthony Summers in 1989 that there are autopsy photos at the Archives, that he has seen himself (during the NOVA viewing), which show the large rear head wound which he observed in Dallas 11/22/63--he says they show the right rear quadrant of the head gone, with scalp reflected. (See my "Final Comments" e-mail of 12/06/95 for more details.) Clarification of this matter should be pursued, and I believe it would be beneficial to do so prior to the prosecutors' depositions. Methodology: now that we have his address, I recommend writing him a letter. We are in a unique position, and his secretary's rebuff may have been intended to put off any additional contact with researchers. We do not fall into that category, and he may reconsider speaking to us if he receives a letter. This strategy would be too late for the upcoming mid-December trip, but if we write soon it may give us time to get his clarification prior to our upcoming major events. To: Dennis Quinn/ARRB, Douglas Horne/ARRBcc: David Marwell/ARRB From: Jeremy Gunn/ARRB Date: 11/28/95 01:50:51 PM Subject: Dr. McClelland Dr. McClelland does not want to talk to us. He said that he has said everything he has to say on the subject. Please continue to prepare a witness file for Dr. McClelland and highlight: (a) portions of his prior statements, if any, that you believe may be in need of clarification; (b) any evidence that he himself may be in possession of records. Please give me an assessment (or assessments if you disagree) about how far it would be appropriate to press our wish to interview him.
