Subject: Parkland Records

Body: I just got off the phone with Dr. Anderson(Parkland President & CEO)'s assistant Karen. I had a preliminary conversation with her on Tuesday. She told me that Dr. Anderson had received our letter and they were in the process of preparing a complete inventory of their JFK records for us. She also told me that they sent most of the records to the County Commissioner's Office in 1993, except the original "medical records"(I don't really know what she meant by that). They are in the process of getting permission from Mrs Connally to forward the Governor's records there as well. She said that they still have copies of all the records they sent to the CC's Office. Dr. Anderson was on his way to the airport when I called, and will not return until Monday. She said that she or the Doctor will call me then with more information. She said they will be happy to meet with Jeremy when he is in town and show him their complete file. I gave her the available times and we will work out the details on Monday. She was very helpful and said they are willing to cooperate with us.
