Subject: One More Possible Parkland Witness
Livingstone (the author) lists Dr. Phillip Williams as present at Parkland--says he was a young intern, and put him on stage in 1991 for a Q & A session. Williams says he was the person who went to get the translucent mattress pad to put under JFK's head in the O'Neal casket. I know of no written corroboration that he was there, but thought I should let you know that he claims he was.
