Subject: Public contacts database

The public contacts database will be changed and split into two database systems Starting Tuesday Morning. All of the research related information on former staff members of various organizations will be moved to a more private database called Research Contacts. Access to this database is limited to staff working on that project and managers. The public contacts database will now be limited to... well PUBLIC contacts. The new Research contacts database is on-line if you want to add it to your desktop. \Please do NOT add any more research contacts between now and Tuesday AM to the public contacts database. Thanks
