**Subject:** CIA review of Security Classified and Immunized Executive Session Testimony  
FYI. I've spoken to Barry this morning on when we could expect his troops to return for purposes of reviewing CIA equities in the above-referenced HSCA record series. Between holiday absences and the press of other ARRB-CIA business, his best guess is that they will re-engage with this task during the second and third weeks of January -- thereby allowing further progress to be logged at the late January Board meeting. I also alerted him to the fact that, in the case of Veciana and Trafficante, there is testimony in the Numbered Files which should be reviewed simultaneously with their Security Classified and Immunized Executive Session testimony.
