**Subject:** Call Received Re: Chief Investigator Position

**Body:** Roger Killitch called today and wanted to get information concerning the Chief Investigator position...He asked me to dispel any hesitations he may have about applying for the position since it has come to his attention (from an undisclosed source) that Anne left prior to completing a year with the Review Board...I asked him where he was working now and for a phone number and he said he is currently with a private agency and was not at a number he could be reached on right away...He offered to call back after 2:00 p.m. today for any available information...Since I have also submitted a resume for the position I didn't feel it appropriate to discuss any aspect of the issue...I approached Tom Samoluk as part of ARRB Senior Staff re: the call and asked if he knew of any policy for dealing with such requests directed toward me (as a precaution)...I did not mention my resume submission to Tom...When I speak with Killitch again today I will ask him to direct any questions regarding applying for the position to you unless informed otherwise...
