Subject: Secret Service

Body: 1. I think it would be a good idea to hold off on any controversial USSS records at the next Board meeting. I would like the dust to settle so that we don't have two (potential) appeals on top of each other.2. I have left a message with Tina Houston, asking her whether she has any documentation about when the presidential protection records were opened. I asked her to call back David unless she is able to return my call today.
