Subject: Agency Contact database, dates and placement of 1996 entries
I entered an agency contact today and, when I saved it, it showed up at the top of the list (as if it were a Jan. 1995 entry) instead of at the bottom (reflecting its status as a brand-new entry). I'm not articulating this very well, but I presume you know what I'm saying. Am I doing something wrong, or is our system not differentiating between 1995 and 1996 entries when it indexes them?
