Subject: CIA records
It appears that the JFK records are not on the database. Documents from this collection which have been reviewed by the board were assigned numbers by Gloria. The HSCA portion of the segregated collection should be on the system shortly. Joe informed me that these documents should be on the disks which were downloaded recently. There were problems with a few of the disks, and the data is not yet available to the staff. But it is likely that we do have the information in our possession.
