Subject: Documents, the second time around.
Thanks for your help with that document which the Board revisited in December. As a reminder it was 104-10004-10257. As we discussed, some mechanism is needed to assure that the Final Determination Form will pick up the postponement voting forms from just the current meeting. The problem here was that it also included ones from the August meeting. Your solution of editing the Final Determination Forms is workable, but a fully automated solution would be more convenient and less prone to error.
