My last email about audio/visual footage was cryptic because we were told to log off. My thought is that if we ask Machado, he will just say he doesn't know where it is. The historian's office is part of the public affairs category of USSS, which may be under Jane Vezeris's jurisdiction. We might have better luck if we start with her instead of Machado. Luck is relative in the case of USSS. What do you think?
