**Subject:** Progress Report on Forensics

1. I am filling in the chain of custody for the ballistics and other items. Some of the reports from the FBI laboratory are in the HSCA numbered files. They give information about who delivered the evidence to the FBI for testing. 2. I included the Nathan Pool information in the chain of custody of the Magic Bullet, however, the final report will have the proper caveat about Tomlinson making no mention in his testimony of Pool's involvement.3. I have searched the CIA databases and the NARA databases for additional information on the "Johnson rifle" story. I talked to Doug about it. We may be able to find something in an open source that might give more insight.4. I have found some contact reports in the HSCA files regarding NASA's trajectory studies performed by Dr. Canning. I will coordinate with Dennis on anything I find. 5. I have a voicemail message in for Steve Tilley concerning other test data.
