Subject: update on usss research matters

I asked Eric to check the following, and this is what he found:1. There is a SUBJECT file in the USSS Official Case File at College Park labeled "TV Transcripts." This file does not contain the transcripts of the news conferences given to us by Machado. I have asked Eric to check for the transcripts in the LBJ Library collection. If these news conference transcripts are not there or not RIFed, we can ask Machado to put RIFs on them and send them to Steve Tilley (per my draft letter).2. The USSS Official Case File contains a folder labeled "Folder summarizing all CO-2 cases in Texas area Nov. 1961 to Nov. 1963." None of the summaries of these cases seems to refer to Richard Case Nagell. We are still waiting for the USSS to respond to our request for Nagell's file. This bit of news would seem to suggest once again that the Official Case File to which we are regularly referred by John Machado is not complete. [One of the cases was referred to USSS by OSI (Air Force) in San Antonio. I asked Tim and Doug about OSI's possibly exchanging records and information with the 112th in San Antonio.]3. In the file labeled "SS Reports Rec'd from CIA" in the USSS OCF, there are no reports generated by the CIA and nothing suggesting even a reference to the National Photographic Interpretation Center.
