**Subject:** HSCA request to FBI regarding "skull fragments"  
I finally checked out those two documents at the FBI responding to the HSCA's request for information on the autopsy and skull fragments. They are in fact open in full in the FBI's HSCA files. The numbers are....1241027410112 (62-117290-268), and they are in the HSCA's numbered files at 002411, and 002299. Phil, if you remember, I sent an email about sending a letter (in your response you said a memo to Carol would be sufficient) to the bureau saying that we had identified this document as open in their files, and would like to open it in the HSCA files.
