Subject: Clean up date macro
In Noelle's absence today, I ran the clean up date macro on selected documents from the 01/31/96 meeting. Since, I don't have authorization to do this, I was especially careful. I did just one document at a time and checked each change carefully. I found that the 10s and the 2017s changed properly, but the 03/1996, which should have remained the same, changed to 01/1999. I handled that little glitch by selecting only those postponement voting forms which needed to be changed. I'll let you know about any other problems I might encounter.
