**Subject:** re. Moving Documents

I can think of no reason not to move the documents from the last meeting over to Archive. In fact, I think I need to have them there if I am to be able to create Final Determination Forms for them. (Unless, of course, you put the Final Determination Form in Review Track as well as in Archive.)If we move these documents to Archive it would be helpful to have a "Reconsidered Document" view. Also, I suggest that, if we cut documents out of Review Track, we closely check that a copy has indeed been saved in the Archive. There is a potential to delete something that we need. This seems to be a procedure that will require a very careful and methodical treatment, one which can only be done when there is an uninterrupted block of time for a tedious task.
