**Subject:** Rewriting a view  
Hey, Chet-meister, We have a front burner need for you, if it's possible [and knowing the guru which you are, I am pretty sure it's possible! :-) ]. You know that view you wrote for us that shows all documents that are not "Status 6?" We need it rewritten so that it lists and prints these documents in numerical order. They don't even have to be by meeting date, just overall numerical order. There doesn't seem to be much rhyme or reason to the order now, and the current process of trying to clean up the Oswald collection would be much more efficient if the view were rewritten as I have described. This is time-sensitive, as we are hoping to have this thing cleaned up by the end of the week. So, good sir, if you can rewrite this thing, we would be much obliged. Thank you ever so much.
