**Subject:** Re: Reminder

**Body:** To: Jerrie Olson/ARRBcc: From: Mary McAuliffe/ARRBDate: 04/24/96 01:10:46 PMSubject: Re: ReminderCIA team has spent the past week as follows:1. Doing post-Board meeting clean-up (preparing/ checking the Federal Register notice and notification information for CIA).2. Developing procedures for tracking true names that appear in CIA records.3. Researching the Board's request to investigate the feasibility of changing the Gunn Substitute for past documents, to see approximately how many documents this would affect and how difficult such a change would be (we have found 9 past documents that made use of the Gunn substitute, and think we have them all).4. Reviewing minutes from last Board meeting for any other directives.5. Doing research on ongoing projects at CIA (including reviewing the CIA-1 response documents, the Win Scott files, and Cuba/DRE files).6. Overviewing the remaining JFK records at CIA (much work still to be done here)7. Preparing the Mexico Chron for the May meeting, including checking out all current staff recommendations for postponements or releases against previous Board releases in related documents.8. Beginning the attempt to ascertain (in coordination with HRG) which documents from the Oswald file still remain to be reviewed, prior to reviewing them for the May meeting.
