Subject: Tickle

The other day Tracy wondered why she didn't get a tickle message that the Sunshine Act Meeting Notice should be sent. I told her that it was because it had already been sent and I had already checked it off.And it has not come up on the tickle during this "warning" time.Now today it showed up that it was not done and should have been sent a day ago. I went back in and found it red again instead of green and had to check it off again.Maybe this had something to do with taking the system down yesterday?
