Subject: Indiana interns (part one)

Okay, folks... those of you who suggested good projects for our college freshmen Indiana returnees, they will be here two weeks from Monday, so I need to take those plans from conceptual and have them ready to go at that time. Joan, you mentioned the indexing idea for Secret Service records; Eileen and Tom mentioned correcting those transcripts; Joe and Doug also have mentioned ideas to me at one time. Can I meet with you all (separately, I would think) at some point during the next week (the earlier the better) to nail down exactly what we are going to have these guys do, and how many people I need to assign to each task? Also, if any additional ideas have cropped up since I spoke to you all, let's see if we can't turn ideas into projects. Remember, these interns (there will be six for the first week and four staying for a second week) have been here before, know our work, and have a year of college behind them, so we can farm them out to LoC, Archives II, Suitland, or wherever else they need to be sent. The only stuff they can't do is anything classified, obviously. Thanks again for your time and thoughts.
