Subject: Weekly Report, May 21

CIA has spent the past week doing the following: -Completing document processing from the March meeting for transfer to NARA-- a long process, given the large number of documents involved, including the IG report. - Preparing Final Determination Forms and the Federal Register notice for May meeting documents, including all the Scelso documents plus consent agenda releases. -Preparing documents for the upcoming June meeting, with continued focus on cleaning up the Oswald file. In trying to account for still-unaccounted-for documents in the Oswald file (ones we have not yet seen or reviewed), we have discovered that HRG has double indexed a number of Oswald file records. We are getting that straightened out. -Continuing to prepare for review of the sequestered files, or JFK papers, at HRG. HRG has just sent over disks for 3 early boxes in the collection, and Chet will be entering these on our data base. In preparing for the upcoming Board meeting, I have begun discussing with Barry the possibility of extending the "window" in one particular location. He understands the alternatives and will come back with a counterproposal. I have also been in contact with Barry Harrelson of CIA and Peggy Grafield of State in preparation for ARRB's upcoming trip to the JFK Library. CIA is on board, but Peggy Grafield is at the moment reluctant to send anyone up except Nina Noring, who is out of town until late June. Jeremy would like someone from State with declassification authority to be there while we are there, even if it is not Nina. I have not yet heard back from Peggy, but expect to hear from her soon.
