Subject: Table
Can you get 1 or two more of those rolling tables from OFI Just like the one the computer is on in the SCIF. If we could get it by Tuesday I would not have to move that computer and Jerrie would be happy...Also I have had no luck on accessing the security system, can we get the federal people out here to help us get in the box and program it the first time.As if you needed more things to do.....Thanks
