**Subject:** Assassination Records Review Board advisory  
ASSASSINATION RECORDS RELEASE ADVISORY JUNE 6, 1996 CONTACT: TOM SAMULOK (202) / 24-0088, FAX:  
227 DOCUMENTS FROM MARCH 19TH MEETING SENT TO NATIONAL ARCHIVES Introduction The Assassination  
Records Review Board has released to the National Archives 362 CIA, FBI and House Select Committee on  
Assassinations (HSCA) documents relating to the assassination of President John F. Kennedy. The Review Board  
voted to release these documents on March 19, 1996. CIA Records The Review Board released 205 CIA  
documents, 24 in full and 181 in part. (The total number of CIA documents voted on by the Board was  
incorrectly reported to be 135 in an advisory dated April 23, 1996.) The CIA documents being released relate  
primarily to the CIAs international investigation to find out anything it could about Oswald, or persons and  
events allegedly having something to do with him, during the days and weeks following the assassination. The  
Board voted that some information relating to intelligence sources and methods and true names should not be  
released at this time. Nine of these documents were reconsidered at subsequent Board meetings after the CIA  
provided additional information to support postponements. The number of postponements changed from the  
original notice in the Federal Register. After the Boards March 19th meeting, the CIA opened in full three  
documents that originally contained postponements. Two documents from this meeting were incorrectly  
noticed in the Federal Register. The correct information is now reflected in the Record Information Forms that  
accompany the documents. FBI Records Other Board action included the release of 154 FBI documents, 27 in  
full and 103 in part. The FBI documents from this meeting relate in part to the Bureaus investigation of the  
incident involving Sylvia Odio in the fall of 1963, before the assassination. Other documents detail the FBIs post-  
assassination investigation of Jack Ruby. The Board voted that informant names and symbol numbers should  
not be released at this time. This total includes 24 documents originally voted on by the Board at the January  
31st meeting, but reconsidered at the March 19th meeting. The FBI has appealed to the President the Boards  
decisions to release information contained in 37 of these documents (including duplicates). Under the Boards  
determinations seven of these documents would have been available immediately, with certain symbol  
numbers redacted. The other 30 documents involved in the appeal would have been available on August 1,  
1996. The appeal is pending. The Board voted to release 9 other documents on August 1, 1996. The FBI did not  
appeal the determinations on these documents. HSCA Records The Board also released three HSCA documents,  
two in full and one in part. Included in this group are documents that relate to Secret Service protection of the  
President. The Board rescinded its determination on three other Secret Service documents from the HSCA files  
to give the Secret Service 60 days (until June 24, 1996) to provide evidence to support their proposed  
Record
