Subject: back-up tapes

Body: I noticed that the back-up tape wasn't done yesterday in my absence. I know that you have mentioned in the past that you don't remember to do this when I'm not here, so I would like to come up with a reminder of some sort. Would a note posted to your computer or on your bulletin board work? It's obviously not a big deal if the tape isn't run and we have no problems, but if we were to have a system crash it could turn into a big deal. Let me know what you think for solutions. I'd be willing to help in any way. Thanks.
